

Manual J Heat Load Design

Provider: Wisdom & Associates, Inc.

Website

<http://www.wisdomandassociates.com/index.html>

Places: Kenai

This course covers how to calculate heat loads for individual rooms and whole buildings. Proper sizing saves up front installation costs and long term operational costs while meeting building codes and increasing occupant comfort. This class will help you design a distribution system that works based on the Manual J industry standard. This class has student use laptops for calculations.
